This massive giveaway provides for land -- financially valued at about \$5 million, to jump to \$150 million or more with the new development rights. At \$5 million - with a willing seller, and a little time - the land could instead be publicly acquired and added to the length of Ballona to help connect this wildlife corridor to the Baldwin Hills- just to the east.

*“Before the vote, Koretz asked about mitigation being undertaken to deal with the property’s methane seepage issues, and wanted to know whether simple extra measures could be taken to protect the area’s extensive wildlife from being harmed by Playa Vista traffic. ‘I couldn’t get a straightforward, thoughtful answer,’ he says, ‘because it was so much of a done deal. They knew they had the votes.’” Tibby Rottman LA Weekly.*

**WHAT IS A DONE DEAL?** Wall Street, Union Bosses, Corporate Lobbying and Gaming with a staggering and never ending cash flow from campaign contributions, behests and favors to politicians (both parties), corporations and unscrupulous individuals.

**What can a done deal provide?** Lax to non-existent regulatory oversight, lack of transparency, no accountability, no disclosure and no follow through or implementation of required mitigation resulting in extreme danger. The BIG DODGE -- taxpayers aren’t just getting the short end of the stick, they simply don’t have any part of the stick.

**The world is suffering...**

As oil is classified by the Environmental “Protection” Agencies as “non hazardous” -- BP laborers in the new catastrophic Gulf oil spew are garbed in white, head to toe in hazardous materials suits.
